**Subject:** EJ Blurb for Delta Site

Deborah

Bob Werner and I discussed the site this morning and I have written up a short blurb for the site in response to Pam Phillips request for an EJ update on the site. Based on the interviews conducted and the informational meeting that I attended in February there does not appear to be an EJ community or issues associated with the site. I will be leaving the office around 11:30 for a medical appointment if you have any questions or need any changes.

Thanks
